**LOCAL GROUNDWATER MANAGEMENT ASSISTANCE FUND
WORKSHOPS**

SACRAMENTO-The Department of Water Resources (DWR) conducted a series of five September workshops that discussed the application process for this year's Local Groundwater Management Assistance Act (AB 303) grants.

Questions were raised at the workshops that may not have been completely answered (or have enough significance that all attendees may want to see the responses).

Those questions and answers can be found on the DWR website at: <http://www.dpla.water.ca.gov/grants-loans/FAQ.html>. Questions and answers from last year's workshops still pertinent to this year's application are also on the website.

In addition, the PowerPoint presentation and handouts, including a grant agreement example and questions and answers on urban water management plans, are available at: <http://www.dpla.water.ca.gov/grants-loans/work.html>.

All potential applicants for AB 303 grants are encouraged to visit the website and read the questions and answers. Applicants with unanswered questions can contact [Ralph Svetich](#) at (916) 651-9218, or [Harley Davis](#) at (916) 651-9229.

The Department of Water Resources operates and maintains the State Water Project, provides dam safety and flood control and inspection services, assists local water districts in water management and water conservation planning, and plans for future statewide water needs.
